1.) I would be prepared to sign the pledge if elected. We need world-wide nuclear disarmament.

2.) Yes, pension funds should divest in companies financing nuclear weapons.

3.) Yes, I would support a Senedd policy of prohibiting the transporting, stationing or deploying nuclear weapons in Wales, in Welsh air space, and in Welsh coastal waters.

4.) We need to invest in green energy and aim for 100% renewable energy in Wales. Nuclear power should not form part of that plan.

5.) Nuclear waste should only be stored in Wales if it's waste we ourselves have created. We should not import waste from other nations to store in Wales.
